

Dear Student,

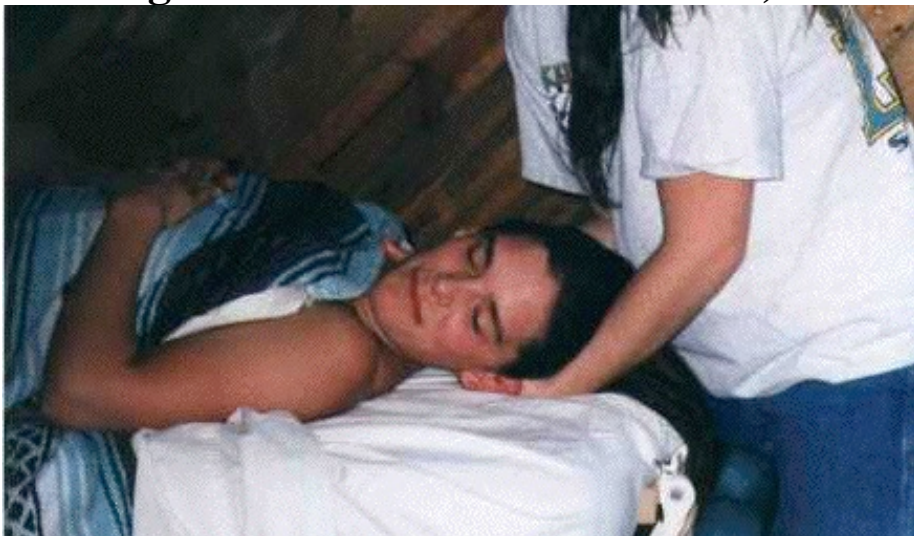

Knowing that you are looking for a more rewarding and lucrative career, I felt inspired to let you know about what has been happening here at MountainHeart School.

This year we have gotten more requests than ever, from spas and other businesses, to let our students and graduates know that they are hiring.

There seems to be a shortage of therapists available to fill these jobs. ! You could be the person to get those jobs and many others as a MountainHeart CMT!

The first step is to get certified in our wonderful profession here at MountainHeart.

Here is an example we received the other day: (We forwarded this to all our graduates & current students.)

"Hello Craig,
I was told to send you our massage therapist ad so that you may forward it on to your students. We already have contracted two wonderful graduates from your school. Please see the ad below. Grand Junction based collaborative health care facility has an immediate opening for a long term registered massage therapist. This

position requires an independent contractor that is excited and willing to engage in integrating patient care with other practitioners. This job gives you the freedom to set your own hours, however, Saturdays are encouraged. Please email resumes to _____.

Please let me know if you have any questions."
